

Reason

In Legend

Out of sight
Still hear a whisper in your absence
Don't know where you are

Ain't no reason for you
To give me reason not to...

Hear your voice
In decent distance don't we look like
A last summer day?

Ain't no reason for you
To give me reason not to...
Stay

I wanna be with you
I wanna lighten up your way
Come what may - slap on a smile
For this life to shine in your eyes

I wanna be with you
I wanna stay with you for a while
'cause just a moment with your freakin' smile is worth a century of my life!

Oh, let me be with you
Let me brighten up your day
Come what may - we shine a light
For this life to shine in our eyes

I wanna be with you
I wanna stay with you for a while
'cause just a moment with your freakin' smile is worth a century of my life.

On our summer day...

Mysteries take place in life -
But moments (are) only real when shared with you!

I wanna be with you
I wanna stay with you for a while
'cause just a moment with your freakin' smile is worth a century of my life.

...

I'd trade a century for your smile!

Oh, let me be with you!
Let me lighten up your way!

Ain't no reason for you
To give me reason not to...
