

Stardust

In Legend

What does it matter if I cry?
It's more than I can put into tears -
So why...
My hope is shattered - I'm broken
Tomorrow's just a place beyond my reach -
Why should I?
I'm away...

From the mountains
Clear as sunlight
I come to rescue
I'm the white knight
On my way to
Your salvation
To save a kingdom's, a queen's delight!

Down in a hole - abandoned
It's like your heart is going to cave in
High and dry...
But in the end there's a spirit
Spirit away all your fears
Out of your heart - take my hand!

From the mountains
Clear as sunlight
I come to rescue
I'm the white knight
On my way to
Your salvation
To save a kingdom's, a queen's delight!

Dark Lord

(Fight the) Dark Lord
(Once your) Heart's gored
(With his) Dark sword

Valor

(I'm your) Valor
(When you're) Vapor
(I'm your) Savior

Here she comes...
Here I am!
Turn(s) night to day
Won't you be my sanity
And end this shadow play?
Won't you please release my mind
And I want you to
Soothe by your singing
I will listen the praise of life!

From the mountains
Clear as sunlight
I come to rescue
I'm the white knight

On my way to
Your salvation
To save a kingdom's, a queen's delight!
