

## The Appeal

### In Mourning

Is it the day we all fall down?  
Please forgive me  
Please let me go  
I wish that I could open up these eyes  
I would do everything just to look at you a single time

I know is [????] for you to see  
Oh can't you hear me?  
I'm calling your name  
I'm not afraid anymore  
Just tired of being behind the shadow

You see I know that you come here every day  
Speak by the [????] how it is  
Even though this is [????] cost me so much  
More than we can share

I wish I knew how you look today  
Take me from [????] away from here  
Take me [????]  
Please let me die in your arms

I wish I knew how you look today  
Take me from [????] away from here  
Take me [????]  
Please let me die in your arms
