

# A Single Touch

In Strict Confidence

Now  
We are standing here  
And now  
We are moving  
There's no  
Need to come with fear  
So why  
Do I still care  
Now  
Coming out of here  
And now  
Light surrounds me  
There's no  
Use in fighting tears  
So why  
Can't we feel free

Lay down stay down  
You make me happy in a manic sort of way  
I can feel my hand in yours  
Like spirits come down from a raging bay  
Just a single touch  
May change your world forever  
Just a single touch  
May change you

Now  
We are stranded here  
And now we are nowhere  
No truce  
Can this sadness fear  
So why  
Can we still live  
Now  
Going out of here  
And now  
Night surrounds me  
There's no  
Use in fighting tears  
So why  
Can't we feel free

Lay down stay down  
You make me happy in a manic sort of way  
I can feel my hand in yours  
Like spirits come down from a raging bay'  
Just a single touch  
May change your world forever  
Just a single touch  
May change you  
Lay down stay down  
You make me happy in a manic sort of way  
I can feel  
My hand in yours  
Like spirits come down from a raging bay  
Just a single touch  
May change your world forever

Just a single touch  
May change you
