

Sleepless

In Strict Confidence

Crawling beneath my surface
Crumbling down my purpose
Stroking my skin you start to
Control me

Hearts and minds growing equal
Starting to dream for a short spell
You're laying next to me
And I take a deep breeze...

Sleepless - keeping me up all night
Weakness - so strange but so close by my side
Sleepless - keeping me up all night
Needless - to say what I feel

I can feel your breath on my skin
And even when you sleep I hear your voice
All night long I listen to your heartbeat

Sleepless - keeping me up all night
Needless to say what I feel
Sleepless - keeping me up all night
Weakness - so strange but so close by my side

Sleepless - keeping me up all night
Needless - to say what I feel
