

# Haloes

Ina Wroldsen

Electrified  
I circle starlight  
I orbit round  
The shadows I find  
Inside of me  
Are rivers of gold  
It's callin' me  
It's callin' me home

Do you see that?  
Flickers of light, color green right there, my love  
Can you feel that?  
Ricochet right through the beat right there, my love  
Do you hear that?  
Tellin' us we are the elite, right here, my love  
Is it loud and clear?  
No regrets, no fear

I see haloes glow wherever I-I see  
We're young and free  
Won't you come, won't you come, won't you come with me?  
I see haloes glow wherever I-I see  
We're young and free  
Won't you come, won't you come, won't you come with me?

Won't you come, won't you come, won't you come with me?  
Won't you come, won't you come, won't you come with me?  
I see haloes glow wherever I-I see  
We're wild and free  
Won't you come, won't you come, won't you come with me?

We multiply  
Into an army  
We touch the sky  
And let the stars in  
Inside of you  
Are rivers of gold  
They're callin' me  
They're callin' you home

Do you see that?  
Flickers of light, color green right there, my love  
Can you feel that?  
Ricochet right through the beat right there, my love  
Do you hear that?  
Tellin' us we're the elite, right here, my love  
Is it loud and clear?  
No regrets, no fear

I see haloes glow wherever I-I see  
We're young and free  
Won't you come, won't you come, won't you come with me?  
I see haloes glow wherever I-I see  
We're young and free  
Won't you come, won't you come, won't you come with me?

Won't you come, won't you come, won't you come with me?

Won't you come, won't you come, won't you come with me?  
I see haloes glow wherever I-I see  
We're young and free  
Won't you come, won't you come, won't you come with me?  
Won't you come, won't you come, won't you come with me?
