

Rebels

Ina Wroldsen

We'll still be dancing in the morning
I still belong to you,
You're still my only one

When the stars come out
They come out to play
And the world is on fire again
And the shots are gone
And the floor's all sway
And the girls are all crying again
When the music stops
Illusions are cut
And we're back beeing more tools
Baby

We'll still be dancing in the morning
I still belong to you,
We'll still be holding on
We'll keep romancing in the morning
I still belong to you
You're still my only one and

We are alive
We are alive
We are alive

When the king hide's gone
And his queen is found
And she's conquered the oceans again
When the movie's over, the curtain's down
And the lovers go back beeing friends
When the world just spins and the people live
They go back beeing more tools
Baby

We'll still be dancing in the morning
I still belong to you,
We'll still be holding on
We'll keep romancing in the morning
I still belong to you
You're still my only one and

We are alive
We are alive
We are alive

We are unity
We are rebels
We are like the sea
We are rebels
We are unity
We are rebels
We are like the sea
We are rebels
Baby

We'll still be dancing in the morning

I still belong to you,
We'll still be holding on
We'll keep romancing in the morning
I still belong to you
You're still my only one and

We are alive
We are alive
We are alive
We are alive
We are alive
We are alive

We are rebels
