

# Infinity

Inara George

We are all like astronauts  
Discovering infinity  
Take my empty body  
And discover me, infinity  
Forgive me endless longing  
So it's crazy you and crazy me

I am  
I am  
I am  
I am  
I am infinity

We are all like astronauts  
The little prints are going to please  
Nevermind your habits absolutely  
You encourage me  
Forgive me endless longing  
So it's crazy you and crazy me

I am  
I am  
I am  
I am  
I am infinity

I get the ??  
So high

We've wasted of our lipstery  
Inter locking, we are center pips  
Take this to the florets  
Into staller with our blue-black muse  
Forgive me endless longing  
So it's crazy you and crazy me

I am  
I am  
I am  
I am  
I am infinity

I get the ??  
So high
