

Awakening

Incendiary

Free of the "I" and "mine"
Ready to finally see
Severing everything keeping me
Under lock and key
When we cease to exist
Our mind is truly free
Bypassing the social hierarchy

This is what I need
To take the pressure off of me
Awakening (awakening)
To break the chained reality
Awakening (awakening)
Ignite this fire inside of me
Awakening (awakening)
Awakening

Light is cast on shadows of doubt
Tighten the vice, sharpen the knife
Consciousness
The escape from which we kill

This is what I need
To take the pressure off of me
Awakening (awakening)
To break the chained reality
Awakening (awakening)
Ignite this fire inside of me
Awakening (awakening)
Awakening

(We are the dogs that can't be trained)
We are the dogs that can't be trained
We are the dogs that can't be trained
Progression through
Progression through
Breaking yourself
Breaking yourself
Breaking yourself
Breaking yourself
