

## Burnt Sacrifice

### Incendiary

Where is your urgency in this cult of dependency?  
The mask of authority covers the enemy  
Still living amongst the filth, waiting for apocalypse  
Disgusted by what I see, won't be saved, you won't be free

Remove yourself from the collective consciousness  
They're living in a box and I'm surviving outside of it  
Following the line to find appeasement for pain in vain  
Searching for answers while the earth spins

Still living amongst the filth, waiting for apocalypse  
Disgusted by what I see, won't be saved, you won't be free

Fever creeps while masses sleep  
The rest are awake as we incinerate  
And sweep our ashes away  
Incinerate...
