C.T.E

Incendiary

Mind is melting
Drip by drip

Footsteps approaching
Sitting home alone
Feel the vibrations
Don't pick up the phone

Eyes are twitching
Hands are shaking
Know they're watching
Every move I'm making

Ringing in the ears
It's too much to take
You've had a grudge with me
What the fuck did you just say?

They're coming for me
Locusts swarm

Mind melting
Drip by drip
Mind melting
Drip by drip

Who knows what day it is?
Don't recognize their face
The lighting starts to dim
The battery starts to drain

Turn the volume down
Just gotta stay in bed
The candle's melted wax
You broke your fucking head

Mind melting
Drip by drip
Mind melting
Drip by drip
