

Perdition

Incendiary

Bodies buried in the sand
Forces growing, with wild eyes marching
No excuse, just look at what they've done
We fought for whats right 'til the bitter end

The time is now, let the judgment begin
We see the fear and we hear the screams
Watch the people falling down to their knees
Begging to be put out of their misery

Their spirits are crushed with nothing to hold
You're all just sheep herded into the fold
Lifeless lights looking for anything
Staring in their eyes saying

"Tell me what to do, tell me what to think, tell me what to feel,
tell me anything"
"Tell me what to do, tell me what to think, tell me what to feel,
tell me anything"

We see the fear and we hear the screams
Watch the people falling down to their knees

Their all just hollow shells
Looking for a place to die
Getting sick from the permanent stench
Of decaying bones and rotting flesh
Degradation of the earth and the skies
Its all collapsing right before our eyes

Apocalypse is here at last!
Apocalypse is here at last!
