

# Rome Is Burning

## Incendiary

All of those we've punished  
Oppression of the weak  
Are coming back to haunt us  
This corrupt society

The future is looking fucking bleak  
Our choices will end humanity  
The future is looking fucking bleak  
Our failures will be legendary

Immortalizing greed  
The worshiping of fame  
We shake the hand that feeds  
In the name of material gain

Destruction, the only solution

This world is breaking down  
So burn it to the ground  
This world is breaking down  
So burn it down

The privileged pillage the earth  
And we're left with the shit from the rats we feed  
The privileged pillage the earth  
And we're left with the shit

This world is breaking down  
So burn it to the ground  
This world is breaking down  
So burn it fucking down
