

## Ain't It Time

Incognito

Where along the line did you get off the track  
Thinking the life you're living is where it's at  
Don't you feel discontent inside  
There's something about you life just cannot hide  
They say home is where your heart is  
But I say it's in your peace of mind  
If you go home to yourself  
Happiness you've got to find

Ain't it time you went home. Ain't it time you went home  
Ain't it time you went home. Ain't it time you went home

Going home, going home

Facing the truth is the first move to make  
Then love and dreams are yours to take  
There'll be no love lest you give it  
Dreams will be dreams until you live them  
Strong belief with a strong pursuit  
Is the latest combination to see you through  
You be your own master double-denim strong  
You wonder how you stayed away from home so long
