

## Changes In Me

Incognito

With love comes change, strong experience, experience  
With time comes light, bold promises, promises, promises

These changes in me, feeling changes in me  
Like vines growing through me, from my feet up to my head  
These changes in me, feeling this strangeness in me  
Love what you doing to me, from my feet up to my head

I'm begging you please, don't ever change your way  
At night we play, deep moon rapping, moon rapping  
By light, we dance, truth must be something, must be something

These changes in me, feeling changes in me  
Like vines growing through me, from my feet up to my head  
These changes in me, feeling this strangeness in me  
Love what you doing to me, from my feet up to my head

I'm begging you please, don't ever change your way  
I'm begging you please, don't ever change your way

Listen baby, I don't know just where we're heading  
Trust me honey, I don't want to fight this feeling

Hear me baby, baby hear me, wherever it is that we're heading  
Believe me baby, believe me, I don't want to fight this feeling  
no, no

These changes in me, feeling changes in me  
Like vines growing through me, from my feet up to my head  
These changes in me, feeling this strangeness in me  
Love what you doing to me, from my feet up to my head

Changes in me, changes in me  
Changes in me, changes in me...
