

Everyday Grind

Incognito

Ooh... baby (baby)
The bottom line's been reached
Our love, our long time bridge
The bath that brought us here
They [?] into the atmosphere
Into the atmosphere
The raise of [?] fire of yesterday's desire
How [?] are broken too slowly fades
Into the palest blue
Into the palest blue

I have to get away
And let my mind unwind
Shakehand the everyday grind
I have to find the will to leave it all behind
Before I lose my mind
Ooh... baby
Ooh... baby (baby)

Honey you go yours
And baby I go mine
Let major realign
No compromise
I bet we live my life
I bet we live my life

I have to get away
And let my mind unwind
Shakehand the everyday grind
I have to find the will to leave it all behind
Before I lose my mind

For longer that I can remember
We've been alone even when we were together

I have to get away
And let my mind unwind
Shakehand the everyday grind
I have to find the will to leave it all behind
Before I lose my mind

I have to get away
And let my mind unwind
Shakehand the everyday grind
I have to find the will to leave it all behind
Before I lose my mind
I have to get away
Let my mind unwind
Shakehand the everyday grind
Oh, I have to find the will to leave it all behind
Before I lose my mind
