

# Everything That We Are

Incognito

Everything that we are  
We are, we are

Everything that we heard  
All the things that was said  
Every song that gave us our own direction  
That's who we are

Everything that we are  
We are, we are

Every step that we take  
All the days of our lives  
What we choose to keep inside our minds  
That's who we are

(Incognito, Lucky)  
With a transatlantic revolution standard  
Stand for something or fall  
Now get involved y'all  
Write it on the wall, get involved  
Problems solve and evolve  
On this third rock revolve around the sun  
Everyone, it's our call to rise, realize  
We arrived, we alive  
Like, right before your eyes  
Don't blink, believe the lies  
Don't sleep, they need disguises  
The weak they seem surprised  
So we just open eyes and believe and keep climbing  
Stars begin aligning  
Reminder to keep moving  
With the earth's like minded  
I'm sure you've got beliefs  
But first consider peace  
Next remember music is best when you release  
Yep, you got beliefs  
But first consider peace  
Next remember music is best  
When you release your soul  
When you release your soul

Everything that we are  
We are, we are

Everything that we heard  
All the things that was said  
Every song that gave us our own direction  
That's who we are

Everything that we are  
We are, we are

The world needs to go to rehab  
I see that, plenty of problems  
Can't depend on Obama  
We're either fighting for honor, religion or something

The problem is fear  
Got to break that  
Step back, relay the facts  
Dust off the vinyl and search through the 8 tracks  
Sonic history  
Nah, that ain't a mystery  
Jimi, Marvin, Michael  
Yeah, they all gave the gift to me  
Lucky Incognito bridging gaps for you all to see  
Seven seas Atlantic  
And we traveling eternally  
Seven seas Atlantic  
And we travel to eternity

You got beliefs  
But first consider peace  
Next remember music is best when you release  
Yep, you got beliefs  
But first consider peace  
Next remember music is best  
When you release your soul

You got beliefs  
But first consider peace  
Next remember music is best when you release  
Yep, you got beliefs  
But first consider peace  
Next remember music is best  
When you release your soul
