

I Couldn't Love You More

Incognito

So many ways I want to tell you
The way I feel for you
Night and day I'm thinking of you
Because my aim is true
Lost inside the rhythm, mmm
Crazy for the love of you
It's all I ever wanted
Baby, you got to know it's true

I couldn't love you more
I couldn't love you more
I couldn't love you more, babe
I couldn't love you more

Can't contemplate a life without you
Without the things you do
Everyday my heart sings for you
For life's a dream come true
I found a road to freedom
All because of love of you
It's all I ever wanted
Ooh, baby, you got to know it's true, oh

(I couldn't love you more)
(I couldn't love you more) I couldn't love you more
(I couldn't love you more) I couldn't love you, baby
(I couldn't love you more) I couldn't love you more

(Oh, oh, oh, oh, I)
(I, I, I, I)

From the beginning it was plain for me to see
You were the one, the one for me
It would hurt so much if it was not to be
You are the one, the only one

(I couldn't love you more)
(I couldn't love you more) I couldn't love you more
(I couldn't love you more) I, I couldn't love you, baby
(I couldn't love you more) I couldn't love you more
(I couldn't love you more)
(I couldn't love you more) So many ways, all of my dreams
(I couldn't love you more) Babe, I want to tell you
(I couldn't love you more) Everyday and night
(I couldn't love you more)
I couldn't love you more, couldn't love you more
Couldn't love you more
(I couldn't love you more) Yeah
(I couldn't love you more) I couldn't love you more
(I couldn't love you more) I couldn't love you more
