

Into You

Incognito

If love was a river, we would flow
Into each other and let go
Dare to meander, dare to go
From here to wherever
Love can grow

Into you, baby, I'm into you
Love it when, baby, when you come
When you come with me
Into you, baby, I'm into you
Love it when
I love it when you come
When you come with me

If love was a fire
Would we glow?
Melt into each other
Let me know

Let's live this life making memories
That we cannot forget
Oh, na na no, na na no
Live it out every fantasy
It's where we want to be
Baby, won't you come with me?

Into you, baby, I'm into you
Love it when, baby, when you come
When you come with me
Into you, baby, I'm into you
Love it when
I love it when you come
When you come with me

Let's live this life making memories
That we cannot forget
Oh, no
Live it out every fantasy
It's where we want to be
Baby, won't you come with me?

Into you, into you, baby, I'm into you
Love it when, baby, when you come
When you come with me
Into you, baby, I'm into you
Love it when
I love it when you come
When you come with me

Into you, into you, baby, I'm into you
Love it when, baby, when you come
When you come with me
Into you, into you, baby, I'm into you
Love it when
I love it when you come
When you come with me
