

It's About Time

Incognito

Ocean breeze came speaking to me
Told me things that I needed to hear
I was stuck in days and my ways
Waiting for the cycle to end

Saw myself in a lonely place
But I don't feel this way anymore

It's about time, I'm smiling again
I've got a plan to stay happy and free this way
It's about time, I've waited so long
I've made the choice to stay happy and free this way
It's about time, now I found my freedom
It's about time, holding on to freedom

Melodies are back in my mind
Feel the songs I'm singing again
Every night when I close my eyes
Dream a dream I hope will not end

Saw myself in a lonely place
But I don't feel this way anymore

It's about time, I'm smiling again
I've got a plan to stay happy and free this way
It's about time, I've waited so long
I've made the choice to stay happy and free this way
It's about time, now I found my freedom
It's about time, holding on to freedom

Freedom
Freedom
Freedom

It's about time, I'm smiling again
I've got a plan to stay happy and free this way
It's about time, I've waited so long
I've made the choice to stay happy and free this way
It's about time, now I found my freedom
It's about time, holding on to freedom

I'm smiling again
I'm smiling again
I'm smiling again

I'm smiling again
I'm smiling again
I'm smiling again

I'm smiling again
I'm smiling again
I'm smiling again...
