

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down

I can see the starlight through you
With the music gettin' down
I can see the starlight through you
With the music gettin' down
