

There Will Come A Day

Incognito

Sometimes I'm walking down the street, with my head in the clouds
I can't see what stands before me, I can't feel the walls around me
I'm lost in a daydream
A place where every child could be runnin' wild, running free
It feels so natural, could it be possible for this to be?
Make a wish on a star, that our troubles won't last forever
Now that we've come so far, I believe that we can make it all the way
A place where everyone can feel love happiness
I know, can't be far away

Where every woman child and man need never be oppressed
I know there will come a day
There will come a day, there comes a day, there will come a day
Yes I've been down on my Knees, with my head to the sky
Hoping this world divided, will make a stand united
Oh happy day
We've seen the future within' the past, the price of closin' our eyes
Let's turn this situation, with love and education
Let's find a way

Make a wish on a star, that our troubles won't last forever
Now that we've come so far, I believe that we can make it all the way
A place where everyone can feel, love happiness
I know, can't be far away
Every woman, child, and man, need never be oppressed
I know, there will come a day
A place where everyone can feel, love and happiness
I know, can't be far away

Where every woman, child and man won't be oppressed
I know, there will come a day
There will come a day, there comes a day, there will come a day
There will come a day, there comes a day, there will come a day
We got to know and understand, we are vital to the master plan
So get ready for the fight as we proceed into the light
Get ready for the fight, for what is right
