Sometimes I'm walking down the street, with my head in the clou ds

I can't see what stands before me, I can't feel the walls aroun d me

I'm lost in a daydream

A place where every child could be runnin' wild, running free It feels so natural, could it be possible for this to be?

Make a wish on a star, that our troubles won't last forever

Now that we've come so far, I believe that we can make it all the way

A place where everyone can feel love happiness I know, can't be far away

Where every woman child and man need never be oppressed I know there will come a day

There will come a day, there comes a day, there will come a day Yes I've been down on my Knees, with my head to the sky Hoping this world divided, will make a stand united Oh happy day

We've seen the future within' the past, the price of closin' our eyes

Let's turn this situation, with love and education Let's find a way

Make a wish on a star, that our troubles won't last forever Now that we've come so far, I believe that we can make it all t he way

A place where everyone can feel, love happiness
