

We Got Music

Incognito

I don't need much
Life is just a roller coaster
Wheel me in wheel me out
It's all right

To keep in touch
All I need is love and music
To keep me satisfied I use it
Gonna' let your love and music take me there

We're gonna dance until we're all in a trance
We're gonna boogie to the Taste of Honey
Tonight the world is alright
We got music, music, music
We're gonna dance into a trance
We're gonna boogie from night to daylight
And now the feeling's all right
We got music, music, music

No it don't mean much

If life is doin' nothin' for ya
Day in and day out
Nothin' feels right

To keep in touch
All you need is love and music
To keep you satisfied please use it
Gotta let the love and music take you there

We're gonna dance until we're all in a trance
We're gonna boogie to the Taste of Honey
Tonight the world is alright
We got music, music, music
We're gonna dance into a trance
We're gonna boogie from night to daylight
And now the feeling's all right
We got music, music, music
