

Without You

Incognito

Lying awake in my bed, thinking things you said
Everything that I do, somehow leads me to you
(Closer to your love)
Lift my spirit so high, you're all I need to get by
I've been counting days, forever thinking ways
(To get closer to your love)
This loneliness will end the day you reappear

Living in this world without you here
It's like trying to reach the heavens when I've got no wings to
fly
You can make this feeling disappear
Come on over baby, come on over to me

Living in this world without you here
It's like trying to reach the heavens when I've got no wings to
fly
You can make this feeling disappear
Come on over baby, come on over to me

You started something in me, stirring constantly
Though we're oceans apart, I build a bridge to your heart
(Closer to your love)
Like a bird on the wire, sing my heart's desire
Caught in something so strong, I really feel I belong
(In the shelter of your love)
This loneliness will end the day you reappear

I just can't keep it in, I've got to let you know
I got so much love to give you, gonna let these feelings show

Repeat (Fade)
