## **Aqueous Transmission**

I'm floating down a river Oars freed from their holes long ago Lying face up on the floor Of my vessel I marvel at the stars And feel my heart overflow

Further down the river

Two weeks without my lover I'm in this boat alone Floating down a river named emotion Will I make it back to shore? Or drift into the unknown

Further down the river

I'm building an antenna Transmissions will be sent When I am through Maybe we can meet again Further down the river And share what we both discovered Then revel in the view

Further down the river

I'm floating down a river
