

I close the window blinds to find the undefined
My dreams have been designed, I leave the world behind

In dreams, I know I know the way
I know the way
(I know the way)
To get there in dreams, I know I know the way
I know the way
(I know I know the way)
The way to get there together

I close the window blinds to find the undefined
I touch you in my mind, you touch me with your mind

In dreams, I know I know the way
(I know I know the way)
To get there in dreams, I know I know the way
(I know the way)
The way to get there together

(I know the way to get there, way to get there)

I know the way
