

# Run Run

Indica

I'm in the river of lights and these machines are so slow  
Sorrow blinds my sight and this crimson river won't flow

Why'd I run, run past all my dreams undone?  
So tired, but won't give up  
And one by one, my days are done  
I won't give up today

I turn on the radio, allow myself to feel numb  
Cancer in stereo, I allow whatever will come

Why'd I run, run past all my dreams undone?  
So tired, but won't give up  
And one by one, my days are done  
I won't give up today, I won't give up today

Today, I won't give up today  
Today, I won't give up

Why'd I run, run past all my dreams undone?  
So tired, but won't give up  
And one by one, my days are done  
I won't give up  
Why'd I run, run past all my dreams undone?  
So tired, but won't give up  
And one by one, my days are done  
I won't give up today
