

Darling if you need me I'll be right here
I've come to rescue
Darling if you need me I'll be out there
Don't wanna risk you
You were my seventeen
You were my A-team

Won't you just bend
This is the way I'm going to bend
This is the way I'm going to bend

Now that the baby's gone
Now that the baby's gone
This is the way I'm going to bend
This is the way I'm going to bend
Now that the baby's gone
Now that the baby's gone

Darling if you need me I'll be out there
Sweeping the flood lines
Darling if you're bleeding I'll be colored
I'll be your hotline
You were my seventeen
You were my A-team

Won't you just bend
This is the way I'm going to bend
This is the way I'm going to bend

Now that the baby's gone
Now that the baby's gone
This is the way I'm going to bend
This is the way I'm going to bend
Now that the baby's gone
Now that the baby's gone
