

Big Fall

Indigo De Souza

I'll be with you
'Til the bitter end
When the world goes dark
And the rivers don't bend

I'll be with you
When the man in you dies
When every stare glazes over
And the oceans rise
Lovin' you
Lovin' you
Lovin' you
Lovin' you's all I wanna do
Ooh, sweet love from you, baby
Is all that I need

These bones are so brittle
This feeling is new
I can't change my words to try telling you
How sweet is this boy
I just happened to find
Living in the same city
Living at the same time

I'll be with you
'Til the bitter end

I'll be with you
'Til the bitter end
I'll be with you
'Til the bitter end
