

Dinner

Indigo De Souza

Dinner won't go down in the way I know it should
Laughing with me now at how insane it looks
Walking through the world
Making hard decisions
Giving with all I got
Hurting like no one's business

Is there anything better than just knowing that you're safe?
Feeling love surround you
And just falling into place
Walking through the world
Feeling like you mean it
Giving with all you got
Crying in the parking lot
