

Ghost

Indigo De Souza

You were not as important as you think you are
As you thought you were
You are not as funny as you think you are
As I let you feel
And if you ghost on me again
These tits will ghost on you forever

I am not as lonely as I think I am
As I feel right now
I, I just don't need you
Like I thought I did
In your arms at night
And if you ghost on me again
These tits will ghost on you forever

I don't need anyone to have me
I love my mom more than any of you fools!
I don't need anyone to love me
I love my Tom more than driving away from a party
After everything's over and everyone's gone
And the Gods are still looking on
And if you ghost on me again
These tits will ghost on your forever

And sleeping on
But honey I've got my own at home
