

# Heartthrob

Indigo De Souza

When you're going and the going gets hard  
Click your heels and feel my love  
Bounce house baby, we're so proud of you  
Hands together, give it up  
He really tricked me, I let him touch me  
Where he wanted  
Didn't know the difference between loving and haunting

And I was just so cold at first  
But after all that moving around  
I start to warm up to the feeling  
I really put my back into it  
I really put my back into it  
I really put my back into it  
I really put my back into it  
Hey hey hey!

God, when I'm a grown-up  
I wanna have a full cup  
A true heartthrob  
I, I wanna work hard  
So I can do what I want  
Set fire to the ones I love  
I, I wanna save them  
Get back to my celium  
I thought we knew what we were doing

And I was just so cold at first  
But after all that moving around  
I start to warm up to the feeling  
I really put my back into it  
I really put my back into it  
I really put my back into it  
I really put my back into it  
Hey hey hey!
