

Not Afraid

Indigo De Souza

When you're in the open
What do you want?
What's coming through your heart?
When you are listening
What are you hearing?
And are you letting it talk?

I wanna shake you and wake you up
You should be loving and being loved
There's nothing better than growing closer
We're getting older
We're getting older

I'm not afraid of dying anymore
I'm not afraid of living either
I'm not afraid of dying anymore
I'm not afraid of living either

What, what does it look like, when you are free?
When you are being true?
When you let go, the people you love are free when they're with
you too

I wanna shake you and wake you up
You should be loving and being loved
There's nothing better than growing closer
We're getting older
We're getting older

I'm not afraid of dying anymore
I'm not afraid of living either
I'm not afraid of dying anymore
I'm not afraid of living either
