

Longing

Infected Rain

Yes, we are doing this now
Pick my brain, if you think you know how
Yes, yes, we are doing this now
Pick my brain, if you think you know how

Who are you trying to fight?
Who are you constantly trying to fight?
You from the future or you from the past?
Who are you constantly trying to find?
Can't you see it's right here in the light?
Who are you?

Seeking answers for questions that don't exist, don't exist
Dualities you can't stop
Persist
Persist
Persist

Moving heaven on Earth agonizing
The ultimate homage weaponizing
Moving heaven on Earth agonizing
The ultimate homage weaponizing

Agonizing
Weaponizing
Agonizing
Weaponizing

Who are you constantly trying to fight?
You from the future or you from the past?
Who are you constantly trying to find?
Can't you see it's right here in the light?

Longing for something you never had
Something you pictured in your head
Longing for something you never had
Something you pictured in your head

In your head
In your head

Bending doesn't mean breaking
It means opening your chest and breathing

A picture immaculate
Perfectly designed
A story in which you're always desired

Proving times and times again
The easy way is walking away
Bending doesn't mean breaking
It means opening your chest and breathing

Proving times and times again
Proving times and times again

Moving heaven on Earth agonizing

The ultimate homage weaponizing
Moving heaven on Earth agonizing
The ultimate homage weaponizing

Moving heaven on Earth agonizing
