

Lure

Infected Rain

You think I'm too much
And I'm crossing the line?
Get used to it because
I'm not losing this fight

Some of you think I'm twisted
Out of my mind
Crazy and wasted
Some of you think I'm twisted
Out of my mind
Crazy and wasted

Blink, Blink, Blink
I see your eyes blink
Trying to figure out where is the trick

There are too many hands in a cookie jar
You're used to all the gimmicks
All the lies

Maybe I'm crazy but I know I'm not lost
I'm done being led by hungry fake gods!

Because I slay when I play
Listen and follow me
I've got a demon in me
I am the prodigy

You think I'm too much
And I'm crossing the line?
Get used to it because
I'm not losing this fight

Some of you think I'm twisted
Out of my mind
Crazy and wasted
Some of you think I'm twisted
Out of my mind
Crazy and wasted

Just stop judging me and listen!
Open your mind
Stop bitching
I'll change the world
With or without you
I'm sick and disgusted by this glamorous lure

Blink, Blink, Blink
I see your eyes blink
Trying to figure out where is the trick

There are too many hands in a cookie jar
You're used to only gimmicks
All the lies

Because I slay when I play
Listen and follow me

I've got a demon in me
I am the prodigy

There is no luck in a 4 leaf clover.
I'm here to lead and to start all over
There is no luck in a 4 leaf clover.
I'm here to lead and to start all over
