

## Storm

## Infected Rain

Walking into the night,  
Walking in the night, I'm trying to find you.  
Waiting for the storm to pass so I can find you.

Walking into the night, I'm trying to find you.  
Walking into the night, so I can find you.  
Walking into the night, I'm trying to find you.  
Walking into the night, so I can find you.

The ice beneath my feet is breaking,  
I'm going under,  
the freezing water is swallowing me,  
I'm going under.  
The ice beneath my feet is breaking,  
I'm going under,  
the freezing water is swallowing me,  
swallowing me.

I want to scream into the ocean,  
hear it echo, hear it sunder,  
then sink back into the ocean  
feel the pain rise up to the skies  
awakening the thunder.

Feel the pain rise up to the skies  
Feel the pain rise up to the skies

Walking into the night  
Waiting for the storm to pass  
It's hard to move, come find me  
It's hard to breathe, please save me  
It's hard to move, come find me  
It's hard to breathe, please save me  
It's hard to move, come find me  
It's hard to breathe, please save me  
It's hard to move, come find me  
It's hard to breathe, hard to breathe...

The ice beneath my feet is breaking,  
the freezing water is swallowing me  
I'm going under!  
Walking into the night  
I'm going under  
Walking into the night  
I'm going under  
Walking into the night  
I'm going under  
Walking into the night  
I'm going under
