

Infectious Grooves

Infectious Grooves

Insane-the mother funksters tear it up
The beat-that makes you wanna stomp it up
Rhythm-you just can't get enough of the Infectious Grooves
Hardcore-and then they switch it to the smooth
Got vibe-mix it in with the groove
The plague-
that's gonna make you booty move it's the Infectious Grooves
Gave it-the network of ability
Threw in-all kind of insanity
Add it up-and now you got the recipe of The Infectious Grooves

Talk to me baby you should of been good-you think you're on it
but you ain't got nothing on me
It aon't as if I hadn't told you so
So now you sit and then you go and when you hear it

Damn-that's what you say when you hear us
Jam-'cause the boys know how to make it all
Slam-
now you wanna get with the program of the Infectious Grooves
Pack'n-a loc'd kinda zak that's
Attack'n-with the bass that's pump'n and
Smack'n-leave you breathless coughing and hack'n with Infectious
s Grooves
We found- the hippest, hardest, heaviest sound

Took it straight from the underground
Now you got the plague that's going around, known as Infectious
Grooves

Talk to me baby it's me again
I love to tell you 'cause it ain't the way that you wanna hear
You try to stop it, but I seen you move your booty
Move that booty, mmm that's a booty, she has a very nice booty
Infectious
