

Lock It In The Pocket

Infectious Grooves

Well the quicker you burn, that's the quicker you'll learn
So hurry up out of the fire everyone has got to take a turn
And the quicker you hate, the quicker you'll relate
To all the things that motivate a person to be great

And the quicker you run, the quicker you'll be done
Say goodbye to what you shouldn't be and say hello to fun
And the quicker it hurts, that's the quicker you'll work
And you'll find that a job well done comes with a special perk

Oh baby, I love the way that it hurts
Oh baby, 'cause that's what makes it work

And the quicker you cope, that's the quicker you'll stop
And you won't ever miss all the bad habits that you drop

Oh baby, I love the way that it hurts
Oh baby, 'cause that's what makes it work

Lock it in the pocket
Lock it, lock it
Lock it
Lock it in the pocket and throw away the key
Lock it in the pocket and throw away the key

Oh baby, I love the way that it hurts
Oh baby, 'cause that's what makes it work

And the quicker you sink, that's the quicker you'll think
About what you're really gonna lose when your life is on the blink
And the quicker you fall the quicker you'll walk tall
It doesn't matter how high you stand even a giant can be small

Lock it
Lock it in the pocket and throw away the key
Lock it in the pocket and throw away the key
Lock it in the pocket and throw away the key
Lock it in the pocket and throw away the key

Oh baby
