

Rules Go Out The Window

Infectious Grooves

If you want what's under the sun - you better get your fingers
'round a
gun
You can rule what's under the sun - if you get your hands around
a gun

I'm not convinced of your intention - there's more than
a point of contention
Outside is where we'll go to settle - I'm gonna pull out my metal
Now you can't use your college education - when
you're swimming in your own perspiration
You broke all the rules you know - now all the rules go
out the window!

If you want what's under the sun - you better get your fingers
'round a
gun
You can rule what's under the sun - if you get your hands around
a gun

Let's check the score to see who's winning -
the muthafucka that ain't afraid of sinning
Makes no difference who's older or bigger - he's the
smart money 'cause his finger's on the trigger
For every person that thinks that they won't die - there's
a bullet waiting to prove you a lie
You can try buy you ain't gonna get no - NO! - 'cause
all the rules just went out the window!

If you want what's under the sun - you better get your fingers
'round a
gun
You can rule what's under the sun - if you get your hands around
a gun

Should of thought about the kickback - now you got
yourself a bitch slap
Without pain, where would I be - just like you, pretty
damn lonely
Now let us take a moment of silence -
to commemorate our new bloody violence
It's the end of the life you know - all the rules just went
out the window

If you want what's under the sun - you better get your fingers
'round a
gun

You can rule what's under the sun - if you get your hands around
d a gun
(2x)
