Electric Light

Infernal

People tell me I'm far too obsessed but they don't Understand how it feels to be me and I won't Be told by others what I shouldn't like I just feel right when I let myself go

It can fill me with pride and excitement inside Such a thrill to be filled with the joy and delight How could everyone not feel the same? Oh they don't see

That there is something on my mind It is a world they left behind And it will always draw me closer

I want electric light
That flashes away
I want my heels sky high
I can't run away
And I say uhh, ahh
And baby, come play
And I know just why
I wanna stay
'Cause on a disco night
Everything is all right

All the time I pretend to be into something
That I don't really like or connect with at all
Just to please someones credible mind
But that ain't me

'Cause in my heart I'm someone else And it's been true since I was twelve And baby now I'm singing my song

I want electric light
That flashes away
I want my heels sky high
I can't run away
And I say uhh, ahh
And baby, come play
And I know just why
I wanna stay
'Cause on a disco night
Everything is all right

Everything is all right Everything is all right

I want electric light
That flashes away
I want my heels sky high
I can't run away
And I say uhh, ahh
And baby, come play
And I know just why
I wanna stay
'Cause on a disco night

Everything is all right

I want electric light
That flashes away
I want my heels sky high
I can't run away
And I say uhh, ahh
And baby, come play
And I know just why
I wanna stay
'Cause on a disco night
Everything is all right

Everything is all right Everything is all right

I want electric light
That flashes away
I want my heels sky high
I can't run away
And I say uhh, ahh
And baby, come play
And I know just why
I wanna stay
'Cause on a disco night
Everything is all right
