Hurricane

Infernal

When the weight that you carry
Is too heavy for your shoulders
When your cup has emptied
When you fear getting older
Maybe imma love you through it

When you're lost in the darkness
And you can't find your way home
And if your world stops turning
And you just want to let go
Yeah baby imma love you through it

You're standing in the eye of a hurricane
Feel that you've got no one to call
You looking in the mirror all you see is pain
And your heart is there to fall

When you are weak, I will be strong
So hold on you're standing in the eye of a hurricane
You know, you know, you know

Baby imma love you through it
Maybe imma love you through it
And just when you think you can't go on
Whenever you're weak, I will be strong
Maybe imma love you through it

And if a ship that you're sailing
Is waving its white flag
And if your heart needs saving
I'll be later I can do that
Yeah baby imma love you through it

You're standing in the eye of a hurricane
Feel that you've got no one to call
You looking in the mirror all you see is pain
And your heart is there to fall

When you are weak I will be strong
So hold on you're standing in the eye of a hurricane
You know, you know, you know

Baby imma love you through it
Maybe imma love you through it
And just when you think you can't go on
Whenever you're weak I will be strong
Maybe imma love you through it

Hurricane...
