

## Inner Fire

## Infernal

Your inner fire  
It couldn't be killed, it's like a sun  
A daughter of freedom  
I hope you know the day will come  
Your inner fire

Nothin' to sell us  
Well, except for the feelin'  
Lightin' up like  
Nothin' hurts you now

A heavy breathing  
My heart will heal  
As soon as all that  
Was yesterday  
It's gonna vanish  
Then you're un-bound  
By the normal  
That's weighing you down

Your inner fire  
It couldn't be killed, it's like a sun  
A daughter of freedom  
I hope you know the day will come  
I guess you never really doubt anything  
When all that you know is keep goin'  
Your inner fire  
You gotta, you wanna, you gonna win

You do it for you, right  
Excited n driven  
More than a quest for you  
I see that in your face

All it is, oh  
Is everything  
And no one gets it  
Unless they try  
It could be painful  
But that's not why  
Want what's waiting on that other side

Fire, fire, fire  
Your, your, freedom, freedom, freedom  
It's like you're fire, fire, fire  
You gotta, you wanna, you gonna win

Your inner fire  
It couldn't be killed, it's like a sun  
A daughter of freedom  
I hope you know the day will come

You never question  
When all that you know is keep goin'  
Your inner fire  
Should know that we see you burn within
