

## Hate Is Cold

Infest

Full of hate and wrath  
Burried deep inside  
with broken hands I've been watching  
but no longer I can't stand!  
Sick of your fake smiles  
Tired of dirty lies  
Trapped in this illusion  
I've used to call my life!!

REF

Memories rissing up  
I'm so sick of it all!  
Time to lose control  
My hate is cold!!!

You dropped sand in my eyes  
Into dust hidding my pride  
And said like always  
Give to a child a glass of lies  
When the last string is broken  
Cap overflow the glass  
Evil possessed my soul  
Anger is unhold!!!!

REF

Memories rissing up  
I'm so sick of it all!  
Time to lose control  
My hate is cold!!!
