I wanna be with you

In the same time, we passed each other by too quickly
As if we're standing on top of the clock hands
Time flows too quickly
Having been together for a moment seems like a miracle

Each moment stacks up
And each page overlaps into several pages
It may seem like goodbye and hello
Same word but different meanings, so hard
Countless people passing by each day
But after it's over, I draw you out again

You're my only refuge
You're my only refuge for my heart

It's only you for me
How much more do I have to run to see you again?
Wait for me, don't forget me
I'm gonna tell you I love you from by your side

I wanna feel your warmth
I won't lose you again
I'm gonna embrace you
Warmer than anyone else

From the start of the day
Till the night with pretty stars
I want our story to fill it up
I want the moments we meet within the border of time to repeat

Our days are the same but different as it repeats
Our days can't always be peaceful
Each of us goes through the wind in life
Swaying back and forth like reeds
I may be weak but I'm right here
Relying on the roots that is you

You're my only refuge
You're my only refuge for my heart

It's only you for me

How much more do I have to run to see you again?
Wait for me, don't forget me
I'm gonna tell you I love you from by your side

I'll fill up the hidden emptiness in your heart
Even after time
We'll remain in each other's memories

In our future
We will smile just like always
I won't ever lose your passionate eyes that look at me
I'll remember everything

Quickly, quickly, I'm running toward that day, d-day
My throat is parched, my heart is burning
I hope this encounter remains as a memory
A story that will be recorded once again

It's only you for me
How much more do I have to run to see you again?
Wait for me, don't forget me
I'm gonna tell you I love you from by your side

I wanna feel your warmth
I won't lose you again
I'm gonna embrace you
Warmer than anyone else

I wanna be with you
