이제 나는 천천히 너에게 다가와
나를 사랑한დი 이윽고
그대의 모습은 그대에게 돌아온 그대

그대에게 돌아온 그대
그대에게 돌아온 그대
그대에게 돌아온 그대

그대야 그대야
그대야 그대야
그대야 그대야

그대야 그대야

One day you came close to me without haste
You gave me your everything
With the only reason that you love me, you

Bags of time we used to be always together
The love I've only been receiving every day
Now I want to give them back to you, now

Every moment which made me happy till now
I will sing a song
With those moments

I will sing for you,
My song for you
Do you know my heart wishing
For the heroine to be you
Thank you, love you
Till the last day of my life,
I will live as your man
Thank you for staying beside me

All those times
Which made me smile till now
I will sing a song with those times

I will sing for you,
My song for you
Do you know my heart wishing
For the heroine to be you
Thank you, love you
Till the last day of my life,
I will live as your man

Thank you for staying beside me

Someday when time goes by,
Even if we become old memories
I will sing for you,
Forever and ever for you
You the one who always look at me from far away
Now I will go close to you
Thank you for being together with me

Thank you for being together with me
