Autonomous

Informatik

Welcome, this is central control
We decide what's good for your soul
Do not bother to resist us
We know your friends and they'll assist us

There is safety in sameness
Why go and blame us?
We're not mistaken
You'll be happier this way

With not much left to discuss
There's no use feeling anonymous
I'd rather find out for myself
I must remain autonomous
I must

How can you still think it perverse
When a greater good is being served?
Everyone please pay attention
Reality's your own invention

I've seen it with my own two eyes
You twist the truth into your lies
I do not hear a word you say
So save your breath and go away
I'm not like you, I'm not the same
Just try to make me play your game
There is one thing that you can trust
I will remain autonomous

I don't need anyone
To show me the way
I'll be there soon enough
It doesn't matter what day

Listen to me
Feel how I feel
Just see what I see
Nothing is real
