

# Watching You Watching Me

Informatik

So close  
The warmth between us grows  
The seeds are budding healthy  
The color of wanting more  
Your body now  
What you are doing won't be forgotten  
And without warning your wish comes true

Watching you  
Watching you  
Watching you  
Watching me

I won't faint  
I won't break  
Stop your doubting now  
And be your own true love  
You're breaking down from your take on me  
I lose all once you know  
That other body won't see the morning  
I'll leave you lonely  
I'll leave you more

Watching you  
Watching you  
Watching you  
Watching me

Watching  
Waiting  
Wanting  
Needing

Watching you  
Watching you  
Watching you  
Watching me
