

Come With Me

Information Society

What is the meaning?

So drop your hesitation and come with me
Nothing that we say can hurt us now
Take this night and make it remember us
There's nothing stopping us now, so come with me

What is the meaning?

We're in the darkness
We are here inside our hiding place
The sound and smoke pour down on us
And so we have to speak with our eyes
Hearin' your voice would be a surprise

We're all just kids from
Around town and so we know
That outside in the real world
It doesn't matter what we do
We know for us there's nothing new

So drop your hesitation and come with me
Nothing that we say can hurt us now
Take this night and make it remember us
There's nothing stopping us now, so come with me

Singing, singing
[Incomprehensible]
Singing, singing
What is the meaning?

Singing, singing
[Incomprehensible]
Singing, singing
I might be singing

I know you're only here to kill a few more hours
I could be somewhere else but
Now I've got my reasons not to go home
I don't want to be there alone

You know you've got to stop
Thinking about right and wrong
Tonight it's you and me, it's now or never
We've got nothing to lose
We can do whatever we choose

So drop your hesitation and come with me
Nothing that we say can hurt us now
Take this night and make it remember us
There's nothing stopping us now, so come with

I don't like music
