

# Black Pill

Ingested

So sincerely as your mind becomes mine  
Three inch incision, purge all uniqueness  
We'll give you meaning, respect and position  
While we gorge upon your weakness

Welcome to our slice of heaven  
Leave your life by the door  
Sing with us and do not question  
You are now one with the four  
Convert from six to seven  
No ones worthless, none are whores  
Leave behind all past possession  
You are now one with the four

Ritual  
Come join this decadent orgy  
Trade in all the pain for pleasure  
Now it's time for you to write your story  
Sit in an office and waste away  
And the baggage piles up beyond your weight  
So close to death what a tragedy  
Friends and family won't cure your melancholy

I will

You can kill a prophet but you can not kill a god  
Bury us in coffins but we've reached the level above

So  
You never felt like you belonged?  
Felt your flesh against flesh?  
Memetic bliss, ecstatic joy?  
Come live a life in excess

It's us and them  
It's right here for all to see  
Do not pretend  
Your life had a purpose without me

We are in-disposable  
We're fucking phenomenal

Welcome to the Rotted Eden, born from the sea of shit  
You know to disagree is treason  
I know, it's hard to admit  
Convert from six to seven  
No ones worthless, none are whores  
Together our ascension  
You are now one with the four

To disagree is treason  
You are now one with the four  
Convert from six to seven  
You are now one with the four

Her body so enticing  
Pulse racing so exciting

Lip biting, there's no fighting  
You are now one with the four  
Her gaze is so inviting  
Deep breath now don't be frightened  
Start slicing, and dicing  
You now belong to us

You can kill a prophet but you can not kill a god  
Bury us in coffins but we've reached the level above

They will tell you not to listen promise you'll resist them?  
Try to sabotage our mission?  
You will not miss them  
We are your new religion

You are now one with the four

They will tell you not to listen promise you'll resist them?  
Try to sabotage our mission?  
You will not miss them

So Sincerely as your mind becomes mine  
Three inch incision, purge all uniqueness  
We'll give you meaning, respect and position  
While we gorge upon your weakness  
Sit in an office and waste away  
And the baggage piles up beyond your weight  
So close to death what a tragedy  
Always remember  
You are now one with the four
